

# Blower Packages

For Vacuum & Pressure Applications

A positive displacement blower is the most common motive air source for the pneumatic transport and fluidization of dry bulk materials.

**Delta Ducon Blower Packages** are comprised of state-of-the-art components along with high quality PD (Positive Displacement) blowers.

Typical **Delta Ducon Blower Packages** include:

- PD Blower
- TEFC Motor
- Double Adjustment Slide Base
- Flat or Raised Base Skid
- Inlet Filter (Replacement Cartridge)
- Inlet Silencer (Double Chamber Type)
- Discharge Silencer (Double Chamber Type)
- V-Belt Drive
- OSHA or MSHA Drive Guard
- Inlet & Discharge Flexible Connection
- Check Valve
- Interconnecting Piping
- Painting & Testing
- Pressure Gauge
- Pressure Relief Valve
- Temperature Switch

Blower packages are pre-assembled to the maximum extent practical.

Sound enclosures are offered when noise levels are a concern.

**Delta Ducon Blower Packages** are ideally suited for:

- PD Truck Unloading
- Pneumatic Conveying (Vacuum & Pressure)
- Fluidizing Silos, Hoppers & Aeration
